Final Project and Presentation

About this Document

Fill out this document and turn it in as part of your Final Project and Presentation submission. You will most likely want to print, sign, and scan this document, but you may use an image editor if you are able to sign your name with a digital pen.

Carefully complete each section. If this document isn't correctly filled out and submitted with the assignment, ***the assignment grade will incur heavy penalties.***

Basic Information

Course Number (e.g., CPSC-120)	CPSC 411-03
Course Section (e.g., 02)	03
Your full name(s) (use the name associated with our school)	Mohammad Usman Qazi Aaron Cope Stephanie Pocci Andrew Jung Andrew Phan
Github Repository URL	https://github.com/2022-fall-csuf-cpsc-411/final-project-and-presentation-mamas-apple-pie

Items Completed

Clearly mark one of the check boxes in each row to confirm whether each of the following items have been completed. Carefully check each row for accuracy; Each incorrectly marked row may carry a **huge penalty on this assignment's grade and be subject to our institution's academic dishonesty policies.**

Additionally, add a **typed** description of where each item can be found in your app, and how to get there easily.

Completed	Not Completed	Item
<input checked="" type="checkbox"/>	<input type="checkbox"/>	The signed and completed version of this document is present in the repo as a multi-page PDF, not several image files.
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Requirement: Callbacks <i>How to find: All over the place. Check the Search Controller file.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Requirement: Logging <i>How to find: See the console window on the bottom right.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Requirement: Storyboard Layout <i>How to find: See "main" file.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Requirement: API Based User Interface <i>How to find: Programmatic View: TA meals controller.</i>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Requirement: Interactive Assets <i>How to find: Several Images change when pressing buttons. Logo on landing page changes depending on dark mode/light mode.</i>

Completed	Not Completed	Item
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Requirement: Text Input and Delegation</p> <p>How to find: The app contains a regular keyboard and a decimal pad. The decimal pad filters out extra decimal/commas and doesn't allow input greater than 30.</p>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Requirement: Internationalization and Localization</p> <p>How to find: The app is translated into Spanish which has a comma decimal separator.</p>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Requirement: RESTful Interactivity</p> <p>How to find: The app both gets and posts to different servers. In the SearchController there is a request that gets nutritional info as well as an image of whatever food you search. In the MealsController there is a request that posts whatever image the user uploads to Imgur for later retrieval.</p>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Requirement: Persistent settings</p> <p>How to find: The app has a settings page. The code can be found in the Settings file. The user can switch from light and dark mode and this setting will persist throughout app restart.</p>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Requirement: File persistence</p> <p>How to find: In the SearchController file, after saving a meal, the foods that were added to that meal are saved locally in a txt file. Caching is performed with the thumbnails of food in the Meals tab. The food that was last added to the meal will have its thumbnail displayed next to it on the list.</p>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<p>Requirement: Database persistence</p> <p>How to find: After saving a meal, a "Meal" object is added to the CoreData database. The code for this is found in the MealStore file and in the MealsController.</p>
